

REU* Site in Earth System Science at Colorado State University

Department of Atmospheric Science

May 24 - July 30, 2021

Why spend your summer with us?

- 10 week research experience
- \$6,000 stipend for the summer
- professional development training
- round trip airfare provided
- furnished and paid housing
- funded travel to present at a scientific meeting

A successful candidate should:

- be a U.S. Citizen or Permanent Resident
- have completed at least two years of college
- have a GPA of 3.0 or higher
- have an interest in climate and weather

Undergraduate Students majoring in:

Atmospheric Science, Chemistry, Computer Science, Earth Science, Engineering, Geosciences, Math, Meteorology, Physics, and other related sciences

ESMEI offers paid summer undergraduate research internships at Colorado State University in the Department of Atmospheric Science. Interns participate in a 10 week program from late May through July. This is an exciting research opportunity in beautiful Fort Collins, Colorado. Join world-class atmospheric scientists investigating the science of clouds, climate and climate change, weather, and modeling. During our program interns will have the opportunity to attend scientific seminars, visit National Scientific Laboratories, and participate in a variety of professional development training.

For more information and to apply, visit: <http://esmei.colostate.edu/reu.html>

Application deadline: February 5, 2021

Contact: Dr. Melissa A. Burt, melissa.burt@colostate.edu

*REU: Research Experiences for Undergraduates program funded by the National Science Foundation.
