Low Cloud Breakout

- Research Talks (no more than 75 minutes)
  - GCSS-CFMIP intercomparison overview (Zhang, presented by Blossey/Bretherton)
  - Column modeling of stratocumulus cloud feedbacks (Blossey/Bretherton)
  - High-order closure development (Randall/Lappen)
  - Development of a stratocumulus to trade cumulus transition case (Krueger/Bogenschutz)
  - Update on activities related to cloud-aerosol feedbacks (Ackerman/Ghan)
- Planning/coordination of near-term activities
- Planning for renewal proposal
