- ❖ Apps
- ❖ Publications for public outreach
- ❖ Summer camps
- ❖ Teacher training
- ❖ Teen Science Cafes
- ❖ Astronomy outings with NCAS

# Community event

---

**Informal discussion about possible local impacts of Climate Change. One week after 2013 Colorado floods!**

## Understanding Climate Change: Global and local perspectives

**When:** Tuesday September 17, 2013 at 7PM  
**Where:** Old Town Library Community Room  
201 Peterson Street, Fort Collins

**A. Scott Denning**  
CSU Monfort Professor

**Nolan Doesken**  
State Climatologist for Colorado

Join the Front Range community for an evening of learning and conversation with two local specialists.

Scott Denning is a CSU Atmospheric Science professor who enjoys engaging audiences in fun and interactive discussions on the science of climate change.

Nolan Doesken heads the Colorado Climate Center, founded a nationwide precipitation observation network (CoCoRaHS), and is featured in the recent This American Life episode, "Hot in My Backyard."

Admission is free! Space will be limited so please arrive early to secure a seat!
