GOALS	OBJECTIVES	
Create a new class of models...	**First-generation Multiscale Model**	$79,775
	Second-generation Multiscale Model	$147,763
	Precipitation physics	$284,380
	Turbulence	$178,297
Identify the strengths and weaknesses of the models...	**Radiation**	$72,402
	Model evaluation using observations	$227,421
Apply the models...	**Conventional models**	$163,650
	Computing	$167,008
	Total	**$1,320,776**
